Since our establishment in 1980, we have involved in the sales activities of reagent and laboratory instruments (for immunity, gene, and cell biology related studies) especially for universities and research institutes. Aiming for the system so that it can be helpful for researchers and mutually beneficial for their research paper presentation, we commit to provide our product accurately and promptly, keep stringent temperature control of our products and deliver appropriate information to our customers.

We just started the development of medical materials from the fiscal year 2003, wishing for the further growth as one of the typical industries in Hokkaido.

Corporate Overview

Address : 1-3, Kita 5-jo Nishi 21-chome, Chuo-ku, Sapporo Hokkaido 060005 Japan
Company Representative : Yuriko Morisaki, president
Phone : +81-11-621-4185    FAX : +81-11-621-4218
Foundation : March, 1988
Capital : 15,000,000 Yen
Employees : 10
Category of Business : Wholesaler
Business Overview : Development of medical materials and sales of reagent and instruments for biological research
Contact : Yuriko Morisaki, president
