In 1971, Hokudo was founded as a sole company in Hokkaido to deal with the production and sales of laboratory animals. Since then, we have evolved our businesses as a multifaceted company for the needs in forefront.

We are supporting the life science research with various techniques and sales, comprehensively.

- Sales of the laboratory animal-related articles.
- The hygiene management of the research facility.
- Production of various biochemical reagent.
- Evaluation of the medical supplies.
