Corporate Profile

We are the dairy manufacturer founded in 1967 by dairy farmer himself. Since then, we always keep in mind to make our products with safety, peace of mind, and high quality.

We produce various kinds of dairy products including milk, yogurt, and ice cream as well as powdered skim milk, butter, cream, cheese, and other products for business use made from quality raw milk at our 4 factories in Hokkaido and other factory outside Hokkaido. Distribution bases in Kanto and Kansai area streamline our product distribution not only within Hokkaido also outside Hokkaido. In addition, for our commitment to the environment, we awarded “ISO 14001” certification for our all 5 plants; and one of our enhancement of quality control system, we obtained HACCP authentication authorized by Ministry of Health, Labour and Welfare for our dairy products including powdered skim milk and cream as well as our milk products.

Our Central Laboratory equips the latest analytical instruments and mini-plant like DNA sequencer or real-time PCR to deal with basic research of bio-technology, activity from product planning to prototype making and development.
